EDUARD RINO Q. CARTON

Fullstack Developer with 8+ years of experience building web applications using PHP (Laravel, Symfony) and Filament, with frontend experience in Vue.js, React, and basic TypeScript. Experienced in developing APIs, middleware, and fullstack features across web and mobile environments.

Has working knowledge of clean architecture and Domain-Driven Design, and is currently expanding skills in Next.js and modern frontend development.

SKILLS

Backend Development

PHP 8+, Symfony, Laravel, Filament, RESTful API design & middleware integration, MySQL, Architecture & Design, Domain-Driven Design (DDD), Hexagonal / Clean Architecture, CQRS, Event-Driven Architecture, SOLID Principles

Frontend Development

Vue.js, React + TypeScript (basic proficiency), Tailwind CSS

Tools & Workflow

Git, Debugging, profiling, and performance optimization, AI-Assisted Development, AI tools for code generation, testing, and documentation, Critical review and validation of AI-generated output, Docker & Devops

WORK EXPERIENCE

Senior Full Stack Developer @ Exocoder Inc. **Jan 2024 - Present**

- Develop fullstack applications using Laravel + Vue.js, Filament, React Native, and Symfony across different projects.
- Architect and develop scalable backend systems using DDD and layered architecture.
- Build and maintain middleware and API integrations with external partners.
- Implement modular and maintainable codebases aligned with SOLID principles.
- Contribute to system design decisions and performance optimization.

Fullstack Developer @ Juancoder IT Solutions **Aug 2022 - Feb 2024**

- Developed ERP systems using Vue.js for the frontend and Laravel for the backend.
- Built and maintained fullstack features across multiple modules of ERP applications.
- Collaborated on designing scalable system components & integrating backend APIs.

IT Programmer @ Bacolod Prosperity Feedmill Corp. **Jan 2018 - Jan 2024**

- Developed and maintained internal business applications and backend systems.
- Designed efficient database structures and optimized complex queries.
- Automated workflows to improve operational efficiency.
- Provided ongoing system support and enhancements.

EXOCODER PROJECTS

Getko PH — Jan 2026 - Present

- PHP (Laravel)
- Domain-Driven Design (DDD)
- Hexagonal Architecture
- PostgreSQL/MySQL
- Claude Code (AI-assisted development)
- Postman
- Docker / Laravel Sail
- GraphQL

Energy Vision — Jul 2025 - Dec 2025

- Symfony (PHP framework)
- Twig (templating engine)
- Domain-Driven Design (DDD)
- REST API
- MySQL
- Postman
- Docker

Pakske — April 2024 - Nov 2025

- PHP (Laravel)
- Filament
- VueJS
- Tailwind CSS
- MySQL
- Docker / Laravel Sail

CauseUCan — March 2024 - Jul 2025

- PHP (Laravel)
- VueJS
- Tailwind CSS
- REST API
- MySQL
- Postman
- Docker / Laravel Sail

Petcheckr — Jan 2024 - Jun 2025

- PHP (Laravel)
- Hexagonal Architecture
- VueJS
- InertiaJS
- Tailwind CSS
- React Native
- MySQL
- Postman
- Docker / Laravel Sail

EDUCATION

State University of Northern Negros — Jun 2021 - Jul 2023

Master in Information Technology

Carlos Hilado Memorial State University — Jun 2014 - Apr 2018

Bachelor of Science in Information Systems (Cum Laude)
